About Us

Dura Composites is a leading supplier of composite products with 25 years' experience in delivering durable, performance-improving and cost-effective composite solutions to a wide range of industries.

We help companies of all sizes unlock the power of composites, and our client base includes businesses in the Industrial, Construction, Rail, Transport, Landscaping, Marine and Leisure sectors.

Our success is driven by our commitment to innovation and by empowering our staff to inspire, educate and problem-solve for customers.

In 2020, Dura Composites was awarded the Queen's Award for Innovation in recognition of our achievements at the forefront of composite material technology.

Dura Composites' products are available through a well-established global distribution network and many products can also be purchased via our online shop.

Dura Pergolas

Stylish & Low Maintenance Composite Timber Pergolas

Dura Pergolas provide shade, protection from the elements, and a place for outdoor entertainment. Choose from one of our pre-designed structures or for larger projects let our expert team help create your bespoke pergola design.

Whilst our composite timber Dura Pergolas maintain a traditional appearance, these eye-catching structure, require little to no maintenance and will not splinter. The material is also UV stabilised and eco-friendly with up to 87% recycled material content, making them far superior to traditional designs.

Dura Pergolas have a unique formula that provides the very best of both worlds, a long lasting material that is strong, durable and weathers extremely well.

For details and technical information please contact Ridgeway. Distributor information details can be found on the back cover.

Please Note: All colour swatches and images shown in this document are intended as a representation only and should not be considered as an exact colour match. Although we are unable to offer full sized tile samples prior to purchase, we would recommend ordering a colour swatch sample so you can assess colour suitability before placing your order.

Please Note: Dura Pergola cannot be used as a covered roof structure and additional resting elements must not be added.

Dura Composites' manufacturing process results in a high level of colour consistency although some variation in colour may be apparent across products from different production batches.

Composite Timber Pergolas

Simple, sleek and surprisingly versatile these stunning pergolas help create a modern, timeless outdoor space. With minimal maintenance and 25+ year life expectancy, they are eco-friendly and offer great value for money. From hotels to beaches to domestic gardens, our beautiful Pergolas are the perfect choice for any area in need of refresh from a decorative functional shading structure.
